Full Stack Developer

Objective

An experienced Full Stack Developer and current Product Care Specialist at TELUS, with a passion for Tech as a full-stack developer. Skilled in TypeScript, Java, Spring, SQL and cloud platforms, I am eager to transition into a Senior Full-Stack Developer role to contribute in innovative digital experiences and scalable solutions.

Skills and Technologies

- Programming Languages: Java (5+ years), JavaScript (4+ years), TypeScript, Python
- Frameworks & Libraries: Spring (3+ years), React (4+ years), Next.js (2 years)
- Back End Technologies: Node.js (4 years), SQL (5 years)
- Cloud Platforms: AWS (EC2, S3, Lambda, RDS), Google Cloud, Firebase
- DevOps & Containerization: Docker, Docker Compose, Kubernetes
- Web Services: RESTful APIs
- Version Control: Git, GitHub
- Agile Development: Scrum, Kanban
- UI/UX Design: Figma
- Full Stack Development: Responsive Web and Mobile (React Native)
- Problem-solving & Communication

Work Experience

Product Care Specialist

TELUS – Feb 2022 – Present | Vancouver, BC

- Provided product care and **technical support** for TELUS customers, enhancing customer experience and satisfaction.
- Resolved software-related issues for mobile devices, ensuring optimal **performance** and **user experience**.
- Gained insights into TELUS' internal systems and **customer-facing technologies**, motivating a deeper interest in backend and full-stack development.
- Collaborated with cross-functional teams to **troubleshoot** complex customer issues, honing **problem-solving** and **communication** skills.

Full Stack Developer

Freelancer / Self-Employed – Apr 2022 – Present | Vancouver, BC / Remote

- Developed responsive, client-facing applications using **React**, **Next.js**, and **TypeScript**.
- Optimized application performance using **AWS services** and integrated third-party **APIs**.
- Applied **Agile** methodologies, **collaborating** with clients and remote teams to ensure timely project delivery.

Hooman Hajarian +1(778)-952-5844
